Five Year Cumulative Author Index to Volumes 11–15

Prepared by the Editor, who is solely responsible for any errors contained in this index. A similar index has appeared in the concluding issue of Volume V and Volume X. A cumulative five year subject index, similar to those published in volumes V and X, is not included since readers can prepare a customized search by using the search function on JPIMOnline. Each article is listed by showing the number of the volume where it appears, followed by the page number where it begins. If an author published more than one article in a particular volume, the volume number is not repeated.
